Microsoft Works: 32-bit clean version for A/UX, System 7 (12/93)

Article Created: 20 April 1991

Article Reviewed/Updated: 17 June 1993

TOPIC -----

There is an incompatibility with Microsoft Works 2.0 running under A/UX 2.0.1. Double-clicking on Microsoft Works causes the menu bar to appear momentarily, then closes and returns to MultiFinder. I have tried double-clicking on spreadsheet, database, and word processing files with the same result. I have also tried adjusting the RAM allocation with no change.

DISCUSSION -----

Microsoft Works 3.0 is a 32-bit clean version. Please use version 3.0 or later.

Article Change History:

10 December 1993 - Edited Discussion.

17 Jun 1993 - Revised include reference to MS Works 3.0.

08 Oct 1993 - Reviewed for technical accuracy.

08 Oct 1993 - Updated to include A/UX 2.0 Information.
