## A/UX 2.0: giftopbm and pbmtoxbm Utilities

Article Created: 14 February 1991

### Article Change History

-----  
08/31/92 - REVIEWED

- For technical accuracy.

### TOPIC -----

There are some new A/UX patches on AppleLink under: Field Engineer/Field Materials/Software. They are: giftopbm and pbmtoxbm. What are they for?

### DISCUSSION -----

The "giftopbm" (converts a GIF format file into a Portable Bit Map format file) and "pbmtoxbm" (converts a Portable Bit Map format into an X11 bitmap format file) are not A/UX specific patches. They were public-domain utilities and used as a temporary solution for people looking for a way of converting Macintosh PICT format into X11 Bitmap format.
