A/UX: AcuCOBOL-85 Compatibility (2/93)

Article Created: 25 February 1993

TOPIC ---

I have recently transferred my information from a Wang system to a Macintosh.
The one application that remains is my lawyer's billing system. I found that
this system is available on UNIX running under AcuCOBOL. Will AcuCOBOL run
under A/UX?

DISCUSSION --

According to A/UX Solution Guide on page 182, AcuCOBOL-85 from AcuCOBOL,
Inc. is compatible with A/UX.

AcuCOBOL Technical Support indicated the following:

• AcuCOBOL-85 version 1.5.5 or v 2.0.4 is for Macintosh II computers under
  A/UX 2.0.1

• AcuCOBOL-85 version 2.0.4 For Quadra is for Quadra computers under
  A/UX 3.0

For more details, contact AcuCOBOL, Inc. directly. To locate a vendor's
address and phone number, use the vendor name as a search string.
