A/UX: System Software Folders Under /mac/sys (8/93)

Article Created: 28 November 1990
Article Reviewed/Updated: 18 August 1993

TOPIC ---

There are three different folders for System Software under /mac/sys. What
are the corresponding roles of each?

DISCUSSION --

• The "Login System Folder" is where the A/UX Login Dialog resource is
  kept.

• The "Startup System Folder" is where the "A/UX Startup" initialization
  resource (the environment to start up, mac24 or mac32 and so on) is kept.

• The "System Folder" is where System Software (like CDEVs, INITs, and so
  on) is stored, much like the Macintosh OS System Folder.
