A/UX: How to Mount a Berkeley File System (9/94)

Article Created: 12 October 1990

Article Reviewed/Updated: 6 September 1994

TOPIC -----

Can I mount a Berkeley File System?

DISCUSSION -----

If you do not have A/UX 2.0 or 3.0, the only way to mount a Berkeley File System is using NFS; you can't mount directly to a physically-connected drive.

With A/UX 2.0 and 3.0, you can mount Berkeley, System V, and NFS volumes locally and across the network.

Refer to the A/UX Network System Administration manual chapter on Configuring and Managing the Network File system.
