A/UX: No TCP/IP out Printer/LocalTalk Port

Article Created: 12 August 1991

Article Change History

08/31/92 - REVIEWED
o For technical accuracy.

TOPIC -----

How can I configure A/UX to do TCP/IP communication (for example, NCSA Telnet) out the printer port?

DISCUSSION -----

Unlike the Macintosh operating system, A/UX only supports TCP/IP communication out the Ethernet port, not the LocalTalk port. The MacTCP that comes with A/UX is not the same MacTCP that runs under the Macintosh operating system, even though they look very similar. The Macintosh operating system version of MacTCP does not work under A/UX.
