A/UX: How to Use mail in the term Program (9/94)

```
Article Created: 29 October 1990
Article Reviewed/Updated: 13 September 1994

TOPIC -------------------------------------------------------------

When I try to use mail from the term program, mail doesn't ask me for a
subject or anything.

DISCUSSION --------------------------------------------------------

The mail function is not exported, so instead of calling mail, term calls
mailx.  When in the term program, use the mailx command instead.
