## A/UX 1.1: Limited Support for the Apple SuperDrive (9/94)

Article Created: 28 July 1989

Article Last Reviewed: 21 September 1994

TOPIC -----

Does A/UX 1.1 support the Apple SuperDrive (formerly Apple FDHD)?

DISCUSSION -----

No. Under A/UX 1.1, the SuperDrive functions as an 800K floppy disk drive; it cannot take advantage of the 1.4MB floppy disk drive supported under Macintosh OS at this time.

A/UX version 3.0 does indeed support the SuperDrive. This is the only solution.
