            • To include version number information.

TOPIC --

I have 20MB of physical RAM installed, but "About the Finder" shows only
16MB. (True in 2.0 and 2.0.1)

DISCUSSION --

The A/UX Toolbox environment has a 16MB limit when you look at the About
the Finder window. A/UX itself is using the full 20MB.
