A/UX: No Pascal Compilers (9/94)

Article Created: 11 September 1989

Article Reviewed/Updated: 14 September 1994

TOPIC -----

Do you know where I can find an ANSI standard Pascal compiler for A/UX?

DISCUSSION -----

We are not aware of any Pascal compilers currently available for A/UX. The two listings below are rather old, but you may want to check with them just in case.

Virginia Tech

Virginia Tech was offering their Pascal compiler for A/UX. As of September, 1989, the compiler had 400 to 500 users on the Tech campus. Distribution is by way of a site-license basis to other universities.

However, Matt Davis, one of the developers, indicated a willingness to work with commercial users. For more information, E-mail Matt Davis directly at the following Bitnet address (you can use the AppleLink/Bitnet gateway detailed under the Higher Ed icon on AppleLink):

davism@vt.opus.cs.vt.edu

Axis Digital

Axis Digital of France had a product available for A/UX 1.1 called HCR/Pascal. It's a translator from Pascal (ISO DP7185, ANSI, with UCSD-extensions string) to C.
