## A/UX 3.0: Multiple Macintosh Partitions (11/94)

Article Created: 29 October 1991

Article Reviewed/Updated: 29 November 1994

TOPIC -----

Will A/UX 3.0 support multiple Macintosh partitions on the same hard drive with Apple HD SC Setup?

DISCUSSION -----

If a disk is set up with multiple Macintosh partitions, A/UX 3.0 will mount them all. However, A/UX doesn't include a tool to create them. Apple HD SC Setup will still be limited to creating only one Macintosh partition per disk. Third party utilities that support UFS and HFS file systems can create multiple Macintosh partitions.
