A/UX: How to Change Hostname

Article Created: 10 September 1991

Article Change History

08/31/92 - REVIEWED
- For technical accuracy.

TOPIC ---

Can I change the Hostname of my system?

DISCUSSION --

Yes. Here's how to change your Hostname:

1) Modify the "/etc/HOSTNAME" file to reflect the new Hostname you want
   for your system.

2) Ensure that "/etc/hosts" has the new Hostname.

3) Restart the system to make this change become active.
