A/UX: Upgrading Printer Drivers (8/94)

Article Created: 18 November 1991

Article Reviewed/Updated: 30 August 1994

TOPIC -----

Is it possible to upgrade the printer drivers under A/UX?

DISCUSSION -----

Yes. You need to replace the LaserWriter, Laser Prep, and Print Monitor files in the A/UX System Folder being used.

- If you don't have a personal system folder, then the path for the global system folder is /mac/sys/System Folder.
- If you have a personal system, then place the files in that folder.
