X Windows System Version 11r3: Specifications

Article Created: 18 March 1991

Article Change History

08/31/92 - REVIEWED

- For technical accuracy.

TOPIC -----

X Windows System Version 11r3: Specifications

DISCUSSION -----

Server

-
- Network transparent
 - Supports multiple monitors connected to a single Workstation running A/UX Version 1.1 or later
 - Color support (with A/UX Version 1.1 or later)

Window Manager

-
- Window decoration similar to the Macintosh environment
 - User control of screen configuration and customization
 - Customized to use Apple Desktop Bus (ADB) mouse and all ADB keyboards
 - Support for "backing store" and "save under," features that improve window system performance
 - Ability to manage multiple screens (using twm) from a single window manager process

Applications

-
- Mouse-based screen editor (xedit)
 - Calculator (xcalc)
 - CPU Performance meter (xload)
 - Clock (xclock)
 - Bit-mapped, image-manipulation utilities, including conversion from screen image to PostScript format (bitmap, xdpr, xwd, xwud, xpr)
 - Terminal emulator with DEC VTIO2 and Tektronix 4014 compatibility

(xterm)

- Font displayer (xfd)

Libraries in C

- Complete applications development toolkit (X Toolkit intrinsics and Xaw Athen widget set)
- Graphics library (.Xlib)
- Include files

Configuration Required

- X for A/UX requires a Berkeley Networking Services or Sun Microsystems' Network File System. (NFS) environment.
- The simultaneous display of X and Macintosh Toolbox applications is not supported in this release.
