## Apple IIe: No Daisy-chaining 3.5 to 5.25 Disk Drives

This article last reviewed: 9/11/87

With an Apple IIGS or IIc, you can daisy-chain disk drives. This is not true with the Apple IIe. Two 5.25" drives can be run from one 5.25" controller card, but you need a separate 3.5" drive controller card if you add a 3.5" drive.
