Daisy Chain Interface Board: Misprint

This article last reviewed: 15 July 1990

TOPIC --

The Apple Service Programs manual, on page 8.5.19, discusses the Daisy
Chain Interface Board and how to identify the revised A and B Boards. The
second paragraph mentions "The Revision B board can be identified by the
P/N CDX 1085B". Should it be "CXD" instead of "CDX", or is "CXD" another
series number?

DISCUSSION ---

This is a misprint. The code should read "CXD" -- not "CDX".
