GS/OS: Tools 50, 51, and 52 from FirstByte

Article Created: 6 November 1992

TOPIC ---

How can I get tools 50, 51, and 52 for Apple IIGS?

DISCUSSION --

These tools are not produced by Apple. They were developed by FirstByte.
It appears that the only place these tools are still available are
from a company called The ByteWorks, whose product TalkingTools is application
development libraries for programmers.

To locate a vendor's address and phone numbers, use the vendor name as a
search string.
