## Apple Logo II--An Introduction to Programming: Manual Errata

Page 161 in Appendix A mistakenly lists ARCR and ARCL as four-line procedures. The third printed line, REMAINDER :DEGREES 10, should be appended to the second line in both procedures so that they read:

```
TO ARCR :RADIUS :DEGREES
ARCR1 .174532 * :RADIUS :DEGREES / 10 REMAINDER :DEGREES 10
END
```

```
TO ARCL :RADIUS :DEGREES
ARCL1 .174532 * :RADIUS :DEGREES / 10 REMAINDER :DEGREES 10
END
```

When you're in the editor, your screen will show:

```
TO ARCR :RADIUS :DEGREES
ARCR1 .174532 * :RADIUS :DEGREES / 10 RE!
MAINDER :DEGREES 10
END
```

```
TO ARCL :RADIUS :DEGREES
ARCL1 .174532 * :RADIUS :DEGREES / 10 RE!
MAINDER :DEGREES 10
END
```
