MouseText: Display for Characters F and G

Article Created: 29 April 1991

Article Last Reviewed:

Article Last Updated:

TOPIC -----

What should the MouseText ROM display for characters "F" and "G"?

DISCUSSION -----

The "F" in MouseText is the character used to represent a carriage return, sort of like this:

```
      |
      |
<----|
```

The "G" displays four horizontal bars, an Apple II representation of an active (or foremost) window. It looks like this:

```
_____
_____
_____
_____
```

(this space is intentional)

You'll find a list of MouseText characters in the Apple IIe Owner's Manual (platinum), page 133.
