Installing Thinktank On Catalyst For The Apple III

You may move ThinkTank (Living Videotext) to the hard disk. This will allow
you to access it with greater ease than using floppy disks. These instructions
assume you are moving ThinkTank to a ProFile (with a driver name .PROFILE).
Substitute the name of your hard disk driver for .PROFILE if you wish to
install ThinkTank on a different hard disk.

COPY PROCEDURE

 1. Boot the CATALYST diskette (if you haven't already).
 2. From the main CATALYST menu, select the Systems Utilities Program.
 3. Press "F" for File Handling Commands.
 4. Press "M" for Make a New Subdirectory.
