Business Graphics III: HP Plotters

Business Graphics III includes a set of drivers for different graphic plotters, one of which is the HP 7225A plotter. HP has since changed their product; the 7225A Plotter has been replaced by the HP 7470A plotter. To connect this new plotter to the Business Graphics III:

  a. Use the Apple Modem Eliminator Cable (A3M0019) along with the cable
     supplied with the plotter (AMP 07470-60090).

  b. Set the .printer driver to 1200 baud and one (1) stop-bit.

  c. Set the plotter's switches as follows:

         S2 S1 Y   US B4 B3 B2 B1
         0   1   0   0   0   1   1   1

  d. Enter the command SET DEVICE HP 7225A to initialize the plotter from
     Business Graphics.
