Apple III: Pascal ToolKit

Page 5 of the Pascal ToolKit manual says:

The 2.0 Compiler shipped with the Tool Kit consists of three files:

```
PAS.CODE  
PASCAL.OPTIONS  
PASCAL.ERRORS
```

These files are not on the disk. After the files were dropped from the product, the editors left the reference to the files in the manual by oversight. Future builds will have Errata Sheets addressing this problem.
