DOS Compatibility Card: Cut & Paste Freezes System (5/94)

Article Created: 24 May 1994

TOPIC -----

I have Quadra DOS Compatible computer I am having problems copying and pasting between Windows and the Macintosh. Every time I try this my system freezes on me. How can I correct this?

DISCUSSION -----

The problem on the Quadra 610 DOS Compatible and DOS Compatibility Card is related to the size and type of information being copied.

To correct this problem:

- Turn Virtual Memory on
- Set the Virtual Memory to 12 MB or higher
- Turn 32-bit addressing on
- Restart your computer
