LaserWriter 16/600 PS: Should Be Compatible with Win95 (10/94)

Article Created: 14 October 1994

TOPIC -----

Support for Win 3.1 & NT is listed for the LaserWriter 16/600 PS, obviously Win95 is not shipping but do you know if print drivers need to be rewritten or should they work ok.

DISCUSSION -----

When Win95 ships, it will ship with a new PostScript driver that utilizes PPD files, and not the old style .WPD files required by Windows. This means that the LaserWriter 16/600 PPD file, as well as other Apple PPD files, will work with the new Win95 PostScript driver.
