OneScanner for Windows: Support for SCSI-2 Command (3/93)

Article Created: 25 March 1993

TOPIC ---

Does the Apple OneScanner for Windows support SCSI-2 commands from an
MS-DOS or Windows-compatible computer?

DISCUSSION --

The OneScanner is a SCSI-1 device. The Adaptec 1510 SCSI card that ships with
the OneScanner accepts SCSI-2 commands, but it transposes them into SCSI-1
commands.
