## DOS Compatibility Cards: Only Some SCSI Devices Supported (5/96)

Article Created: 20 May 1996

Article Reviewed/Updated: 23 May 1996

TOPIC -----

I have a DOS Compatibility Card in my Macintosh computer, and would like to use some SCSI devices with Windows. What SCSI devices are supported using the DOS Compatibility Card?

DISCUSSION -----

The DOS Compatibility Cards support Mac- or PC-formatted SCSI hard drives, as well as all Apple CD-ROM drives except for the Apple PowerCD and AppleCD SC drives. Other SCSI devices such as scanners, non-Apple CD-ROM drives are not supported.

Article Change History:

23 May 1996 - Added AppleCD SC to the discussion.
