DOS Compatibility Card: Adapter for Projection Equipment (3/95)

Article Created: 21 March 1995

TOPIC -----

I am having problems getting the DOS Compatibility Card to sync properly to the projection equipment I am using. Is there a way to do this?

DISCUSSION -----

You can use the Sony MacView Cable Adapter (part # T-9985-647-1) to get the proper sync from both DOS and Windows. You need to use these settings on the MacView Cable Adapter:

Adapter Setting: M
Dip Switches: 1-6 OFF, 7-9 ON

The adapter can be purchased from Sony Service Parts at (800) 488-7669.
