PC Exchange and Disappearing Files (5/96)

Article Created: 31 May 1996

TOPIC -----

I am using PC Exchange with a DOS-formatted SCSI drive and files seem to disappear sometimes. Why does this occur?

DISCUSSION -----

PC Exchange (2.0.x) has a limit of displaying 512 files in a subdirectory. Apple is aware of this and it is being investigated by Engineering. There is no known information as to when or if a fix will be available.
