Apple Remote Access: AppleTalk Phase I and Phase II (7/94)

Article Created: 5 November 1991
Article Reviewed/Updated: 29 July 1994

TOPIC ---

Can Apple Remote Access (ARA) work on Phase I and II AppleTalk networks?

DISCUSSION --

No version of Apple Remote Access was tested on a network using AppleTalk
Phase I and is therefore not supported. Although ARA may work on some network
configurations that are using both AppleTalk Phase I and Phase II you do so at
your own risk. There are no practical reasons for continuing to use Phase I on
AppleTalk networks, Apple strongly recommends using Phase II.
