AppleTalk Remote Access: Data Compression

Article Created: 2 January 1992
Article Last Reviewed:
Article Last Updated:

TOPIC ---

How is compression handled with AppleTalk Remote Access, and is there a way
to control it?

DISCUSSION --

AppleTalk Remote Access does all data compression on the Macintosh.
The CCL scripts specifically turn off all data compression in the modem.
AppleTalk Remote Access uses the V.42bis scheme, and the user can't
control it.
