AppleTalk Remote Access: Don't Use at 1200 bps

Article Created: 6 January 1992
Article Last Reviewed:
Article Last Updated:

TOPIC ---

Is it true that Apple doesn't recommend 1200 bps for AppleTalk Remote
Access, and won't provide a 1200 bps script for that product?

DISCUSSION --

Apple doesn't support 1200 bps because the delay is right at the threshold
for timing out.
