## Apple Remote Access: Remote Access Manager (11/93)

Article Created: 15 November 1993

TOPIC -----

This article provides a brief description the tasks Remote Access Manager provides.

DISCUSSION -----

The remote access server administrator uses Remote Access Manager software to set up and administer the server. These tasks include the following:

- Setting server preferences
- Registering users
- Configuring ports for dial-in and/or callback access
- Establishing server security
