AppleShare Print Server 3.0.1 & Retrospect 1.3 (8/93)

Article Created: 8 April 1993
Article Reviewed/Updated: 27 August 1993

TOPIC ---

Are there any reported problems when the Retrospect Application 1.3 and
AppleShare Print Server 3.0.1 run on the same Macintosh?

DISCUSSION --

Crashes and "unexpectedly quit" errors have been reported where the Retrospect
Application is running on the same computer as the print server.

The solution is to use the AppleShare 3.0.2 Patch Program to update AppleShare
3.0 or 3.0.1 file and print servers to version 3.0.2. The AppleShare 3.0.2
Patch Program is available directly from Apple or on AppleLink in the following
path:

Software Sampler
 Apple SW Updates
  Macintosh
   Networking & Communications
    AppleShare 3.0.2 Patch Program
