AppleShare 3.0.2 Patch (6/93)

Article Created: 4 June 1993

TOPIC ---

I just got a flyer from Sonic Systems that says Server Sentry is now
shipping with the AppleShare 3.0.2 patch. They also included the full May
17th MacWeek article on AppleShare 3.0.2. Does such a patch really exist?
Is it only useful for Server Sentry and Server Manager.

DISCUSSION ---

AppleShare 3.0.2 is not a shipping product. It is currently under
development and will be available in the future. The MacWeek article and
the Sonic Systems flyer are incorrect. There is a current AppleShare 3.0.1
patch "3.0.1 rev. B" that is being sent to customers with specific
problems. This patch was not fully tested, contains some bugs, and is not
generally available.
