AppleShare: Using with CD-ROM Drive (8/95)

Article Created: 15 July 1991

Article Reviewed/Updated: 22 August 1995

TOPIC -----

We have a CD-ROM drive that is connected to our file server as a server volume. There are times when we would like to use other CDs while the server is still running. Is there any way we can do this without having to shut down the server?

DISCUSSION -----

Apple recommends you upgrade to AppleShare 3.0.x, AppleShare 4.0.x, AppleShare 4.1, or AppleShare Pro (AWS 95). These versions of AppleShare have the feature of Continuous Parallel Data Structure (PDS) maintenance. This allows mounting and unmounting removable media (like CD-ROMs) while the server is running.

Article Change History:

22 Aug 1995 - Added information on AppleShare 4.1.

13 Sep 1994 - Added information on AppleShare 4.0 & Pro.

05 Oct 1993 - Updated information to AppleShare 3.0.x
