AppleShare 3.0 Print Server: Upgrade for Dayna EtherPrint

Article Created: 28 October 1992

TOPIC ---

I have recently installed AppleShare 3.0 Print Server and Dayna
EtherPrint boxes. Now I can't print to my printer. Do I need to upgrade
the Dayna boxes to get this to work?

DISCUSSION --

Yes, there is a firmware upgrade required. Depending on which version of
the EtherPrint hardware you have, there are different upgrade versions:

Dayna EtherPrint 1.6
Dayna EtherPrint Plus 1.4
Copyright 1992, Apple Computer, Inc.
