AppleShare Pro: Application Incompatibilities (6/93)

Article Created: 11 June 1993

TOPIC ---

Are there any incompatibilities between AppleShare Pro on an Apple
Workgroup Server (AWS) 95 and the following applications:

```
ACIUS' 4th Dimension
Adobe's PhotoShop
Aldus' FreeHand
Aldus' PageMaker
Apple's MacX
Claris' CAD
Claris' FileMaker
Claris' HyperCard
Claris' MacDraw
Claris' MacDraw Pro
Claris' MacProject Pro
FormZ
MacroMedia's ModelShop II
Microsoft's  Excel
Microsoft's Word
SuperPaint
```

DISCUSSION ---

Based on the fact that the server is not supposed to be used as a
workstation, the client system won't see any differences than using any
other AFP server. If the question is based on launching applications that
reside on the server, then the facilities for copy protection and limited
number of launches are implemented.
