Apple Internet Router 2.0 to 3.0 Upgrade Problem (7/93)

Article Created: 22 July 1993

TOPIC ---

I'm trying to upgrade from the Apple Internet Router (AIR) 2.0 to 3.0, and
want to use my old AIR 2.0 settings. I followed the instructions on pages
11-12 of the manual for upgrading from AIR 2.0, but when I tried to open
the settings within AIR 3.0, it didn't show up in his select box. The
document did show up in the finder, however. Rebuilding the desktop didn't
help.

DISCUSSION --

Use ResEdit and give your old document the same type and creator as a new
AIR 3.0 settings document.
