Apple Internet Router Modem Scripts (6/95)

Article Created: 21 December 1994
Article Reviewed/Updated: 8 June 1995

TOPIC ---

Is there a manual or documentation that tells how to write modem CCLs for the
Apple Internet Router (AIR)? Should Apple Remote Access (ARA) modem CCLs ALWAYS
work for the Internet Router?

DISCUSSION --

AIR and ARA modem CCLs are the same. Please note that AIR uses ARA 1.0 CCL
scripts and should ignore ARA 2.0.x CCL calls but may not. What you need is the
Apple Remote Access Modem Toolkit v2.0 available from APDA, part #RO129LL/C. To
locate APDA's address and phone number, use APDA name as a search string.

Article Change History:
08 Jun 1995 - Added more information on which version of ARA CCLs.
