              • In correct format.

TOPIC ---

Does Inter•Poll's Responder INIT increases the number of packets on the
network when an inquiry is not currently outstanding? In other words, if
Inter•Poll is not polling, is Responder broadcasting any packets?

DISCUSSION --

The Responder INIT that comes with Inter•Poll does not broadcast any
packets over a network unless Inter•Poll sends a request for Responder to
do so.
