A/UX 2.0: No TCP/IP Protocol on LocalTalk Cable

This article last reviewed: 28 November 1990

TOPIC ---

I'm running A/UX 2.0 and want to use TCP/IP protocol on LocalTalk cable
(TCP/IP embedded DDP)?

DISCUSSION --

A/UX 2.0 does not support TCP/IP protocol via LocalTalk cable. This means that
no TCP/IP packets would go through the LocalTalk cable from or to an A/UX
machine.
