AppleTalk: Where To Find Protocol Information

This article last reviewed: 19 February 1991

TOPIC ---

Is there a technical reference that outlines or specifies the series of
AppleTalk-related calls to logon to an AppleShare server? I would like to
query the server for some user and password information.

DISCUSSION --

"Inside AppleTalk", published by Addison-Wesley, has all of the AppleTalk
protocols and the other information you need.
