ABS Tech Note: AS00 About AppleSearch Technical Notes (6/94)

Article Created: 23 June 1994

TOPIC -----

This document accompanies each release of Apple Business Systems Technical Notes.

DISCUSSION -----

We want Technical Notes to be distributed as widely as possible, so they are sent to all Partners and Associates at no charge; they are also posted on AppleLink in the Developer Services Bulletin Board also.

We place no restriction on copying Technical Notes, with the exception that you cannot resell them, so read, enjoy and share. We hope Apple Business Systems Technical Notes will provide you with lots of valuable information.

Technical notes are a 'living' complement to product documentation, be it Inside Macintosh or other documentation. This means that they are updated on a regular basis, so as to be accurate and up to date. New Notes are added as required.

This technical note is an index of all technical notes related to the AppleSearch and related products. It also documents all changes to the technical notes since the previous release.

Index

Technical Note	Subject	Last Revision
ASearch00	About AppleSearch Tech Notes	Dec, 1993
