Open Transport: ATalk Stays Off After Extensions Off Start 4/96

Article Created: 29 September 1995

Article Reviewed/Updated: 18 April 1996

TOPIC -----

I notice when I restart my Power Macintosh 9500 computer after having started it with extensions off, AppleTalk remains turned off in the Chooser.

Is it possible to have AppleTalk default back on after an extensions off startup?

DISCUSSION -----

This issue has been corrected with System 7.5 Update 2.0. Updating your system is the fix for this issue.
