Open Transport: Network Time 2.0.1 Issue (4/96)

Article Created: 19 April 1996

TOPIC -----

I'm having a problem with system hangs when using Network Time 2.0.1 and Open Transport or System Update 2.0. Is there a compatibility issue with Network Time and Open Transport?

DISCUSSION -----

Network Time and Open Transport are compatible. The compatibility problem is with the Auto Power On/Off control panel which was last shipped as part of System 7.5.

The solution is to disable the Auto Power On/Off control panel.
