AppleShare PC: OS/2, MS-DOS Compatibility

This article last reviewed: 31 August 1989

TOPIC -----

Does the new AppleShare PC run under the OS/2 compatibility box?

DISCUSSION -----

AppleShare PC 1.2 and AppleShare PC 2.0 do not support OS/2 or the MS-DOS compatibility box in OS/2. The OS/2 compatibility box is not compatible for file services because the redirector does not work, and low-level calls that AppleShare PC uses for printing are not supported either.
