## Hebrew 3270 Emulation (1/94)

```
Article Created: 6 January 1994

TOPIC -----------------------------------------------------------

This article briefly describes a Hebrew 3270 terminal emulation.

DISCUSSION ------------------------------------------------------

Heb3270 allows a Macintosh computer with a TCP/IP network connection to
emulate an IBM 3270 terminal with Hebrew language capability.  Heb3270
provides:

• Bilingual Hebrew/Latin computer interaction
• Graphic support for 3179 compatible graphics
• File transfer acting as a FTP server
• VT220/320 terminal text emulation

For information contact Bioinformatics Unit, Biological Services.  To
locate a vendor's address and phone number, use the vendor name as a search
string.
