MAE: Floating Point (Math) Coprocessor Support (10/94)

Article Created: 31 October 1994

TOPIC -----

Does MAE support applications that require a math coprocessor? If not, can I use SoftwareFPU to use those applications?

DISCUSSION -----

No, MAE emulates a Motorola 68LC040 processor, and does NOT support applications requiring a Floating Point (math) Coprocessor (FPU). Also, SoftwareFPU does not work under MAE.
