How to Download MAE 2.0.2

There are two sites to locate the latest patch. Connect to one of the following
locations to get the appropriate tar file (sun, hp, or hp10):

• ftp.support.apple.com (130.43.6.3)
• www.mae.apple.com (17.255.216.51)

These patches can be obtained from the following directory on the server:

  /pub/mae/patches/mae_patch_2.0.2

IMPORTANT: Make sure you use FTP "binary transfer" mode to get the following
files.

  /pub/mae/patches/mae_patch_2.0.2/README.PATCH.MAE2.0.2 - This file
     contains complete details on what is contained in the patch release
     as well as how to download and install the patches.

  /pub/mae/patches/mae_patch_2.0.2/maepatch2.0.2.hp.tar - The most recent
     incremental update for MAE 2.0 running HP-UX 9.x on HP Series 700
     workstations.

  /pub/mae/patches/mae_patch_2.0.2/maepatch2.0.2.hp10.tar - The most
     recent incremental update for MAE 2.0 running HP-UX 10.01 on HP
     Series 700 workstations.

  /pub/mae/patches/mae_patch_2.0.2/maepatch2.0.2.sun.tar - The most recent
     incremental update for MAE 2.0 running on Sun SPARC workstations.

Download the appropriate file for your workstation. Please note, the tar files
are compressed internally and did not require further compression using
`compress' or a similar utility.

Extracting the Patch Files From the Downloaded File

Place the tar file anywhere. Extract it by running the following command:

On HP-UX 9.x Workstations:
  % tar xovf maepatch2.0.2.hp.tar

On HP-UX 10.01 Workstations:
  % tar xovf maepatch2.0.2.hp10.tar

On Sun Workstations:
  % tar xovf maepatch2.0.2.sun.tar

The extracted files will be placed in a new directory named "maepatch2.0.2.sun",
"maepatch2.0.2.hp", or "maepatch2.0.2.hp10" depending on your system type. Once
the extraction is complete, you can delete the downloaded file
maepatch2.0.2.*.tar.
