MAE: Only HFS CD-ROM Discs Supported (6/96)

Article Created: 25 June 1996

TOPIC -----

When I try to mount Audio or Kodak Photo CD-ROM discs in the Macintosh Application Environment (MAE) version 2.0.2 and earlier, I get the message, "This is not a Macintosh disk. Do you want to initialize it?" What is wrong?

DISCUSSION -----

MAE supports HFS (Hierarchical File System) CD-ROM discs only. Audio and Kodak Photo CD-ROM discs do not use the HFS format, and at this time, cannot be used with MAE.
